

# Protection In Case.

Charge your phone with peace of mind.

**Lithium-ion batteries** are at highest risk of fire when your device is charging. Protected by Firelce Shield® gel, ChargeSafe™ is the first solution of its kind to cool, suppress and prevent reignition of lithium-ion battery fires.

Plug in.

Zip up.

Breathe Easy.

## How it Works

- When a lithium-ion battery fire occurs, Firelce Shield gel is released to instantly cool and suppress the fire
- Effective up to 5,000° F
- Fits all smart phones
- Non-toxic & kid safe
