

Soil₂O™

SOIL CAP

SEAL YOUR SOIL

STABILIZE STOCKPILES, PREVENT DUST.

Soil₂O
Soil Cap
30 Gal. Drum

What is Soil Cap?

Soil Cap penetrates and bonds with soil aggregate to stabilize and protect stockpiles from erosion and dust caused by wind and rain. Soil Cap's advanced polymer technology provides a waterproof, durable shell on treated surfaces, saving you time, labor and money.

Why Choose Soil Cap?

Soil Cap is easy to apply, non-corrosive, odorless, eco-friendly, leaves no residue, and helps you stay compliant.

Compliance:

- Soil Cap meets requirements for:
- National Pollution Discharge Elimination System for Erosion Control
 - U.S. EPA Particulate Matter Reduction
 - PM 10 & PM 2.5

**MINING OPERATIONS • QUARRIES • CONSTRUCTION
DEVELOPMENT • RUNOFF REDUCTION • EROSION CONTROL
SOIL WATERPROOFING • ROAD BUILDING**

Mixing & Application:

Mix Rate:

Soil Cap mixes with water at a rate of 30 gallons of Soil Cap per 1,000 gallons (3%) of water to treat up to 40,000 square ft. (no runoff, leachate or brackish water)

Cumulative:

Multiple coats increase durability & longevity

Build Rate:

The build rate is approximately 1 liter per square meter, or 1 gallon per 40 square feet

Specifications + Ordering

Soil2O Soil Cap 30 Gallon Drum	Product ID: S2O-DC-30
Appearance:	Liquid
Color:	Milky White
Effective period:	90 days
Viscosity:	<500
pH:	7.0 – 9.0
Storage:	Keep in a cool, dry place (33° - 95°F)
